

## A premium fine food concept built in 2012 by Lagardère Travel Retail to promote the worldwide appeal of the Italian fine food, wines and spirits

Inside Casa del Gusto, passengers can find taste and purchase exclusive Italian fine food. In a welcoming and casual retail design, with a vintage touch through elements such as Ape Piaggio, wood baskets and design tables, Casa del Gusto offers customers a select range of brands and suppliers and a premium assortment of the most iconic Italian products: wines, liquors, pasta, olive oil, biscuits, chocolate and more.

Hero products such as limoncello, chianti, parmesan and macaroni drive customers into the store, while niche specialties contribute to making the customer experience unforgettable and unique.

The offer is composed by both Italian and local products, which varies from city to city.
